MARINE
#SAILCONNECTED

A photograph of two sailors on a boat. The sailor in the foreground is wearing a black jacket with white accents, sunglasses, and a SENA Marine communication headset with a microphone. The sailor in the background is also wearing a black jacket with white accents and a SENA Marine communication headset. The background shows the blue sea and a clear blue sky. The text 'ONBOARD TEAM COMMUNICATION' is overlaid in large white letters at the bottom of the image.

#sailconnected

All On The Same Wavelength

Whether it's student training, family outings, competitive sailing or industrial shipping, SENA Technologies keeps everyone connected and makes your voyage safer and more communicative.

70% of all yachting enthusiasts state that they experience communication problems due to noise, distance, weather conditions or other reasons. Appino Water Sports and Activities Survey 2023

At SENA, we made it our mission to connect teammates. Our wireless communications systems revolutionized the motorcycle industry and made us a market leader in the powersports industry. Now we proudly present our first nautical communication systems, featuring our groundbreaking and self-healing Mesh Intercom technology.

Put to the test in one of the toughest boat races in the world, the Ocean Race, our crew headsets were made to make your sailing adventure safer and more fun.

Enjoy effortless crew communication while having all hands free for the boat, experience the advantages of Mesh Intercom™ Technology and the exceptional audio quality and noise-free transmission you can expect from SENA products.

Wherever your next adventure takes you to, be sure to **#sailconnected**.

Mesh Intercom™ Technology

With Mesh Intercom, you can easily and instantly connect with your crew, with one click! Enjoy hands-free communication within a working distance of up to 800 m/ 0.5 mi.

The self-healing Mesh Intercom constantly searches for the best way to keep users connected. If the connection to a device gets lost, this does not affect the rest of the group and Mesh Intercom will automatically reconnect as soon as possible.

Communicate in Mesh Intercom with a virtually limitless number of devices. You can switch between 9 open channels.

sena.com

"The SENA NAUTITALK makes for real effective communications. No need for crew 'mis-relaying' what's been passed between the helm and the bow. It stops all the shouting, that for many just increase the confusion in the moment."

David Hartshorn, Skipper Bekezela

"It is our goal to create better and safer communication on board sailing boats, while offering a unique experience for our customers."

Tae Y. Kim, CEO SENA

"The SENA NAUTITALK headsets have proved a phenomenal piece of equipment in facilitating communications while up the rig."

Laura Hampton, AQP UNICEF

NAUTITALK BOSUN

**SELF
FLOATING**

The SENA NAUTITALK BOSUN is a compact communication headset specially designed for boating and yachting. Enjoy noise-free communication with a microphone designed to filter wind-noises. Being waterproof, the Bosun is also the perfect device to stay connected with your crew on the water. It is worn around the neck and can comfortably be combined with sunglasses, caps or helmets.

NAUTITALK N2R

Perfect for noisy environments like engine compartments, work boats or high-powered sport boats, this device stands out with its durability and improved construction. With its over-the-head earmuffs it combines effective communication and hearing protection with a noise reduction. In addition to the built-in intercom system, NAUTITALK N2R allows you to reduce the effects of ambient noise with its Advanced Noise Control™ functionality, allowing crystal-clear audio in your intercom conversation.
